as of April 2023 / * In VDM Alloy 602 CA®, scaled and descaled (ground on both sides) material is present.

Our service

Processing waterjet- and laser-beam cutting

- Cutting of rings, circular blanks and drawing components
- Blanks on the basis of .dwg and .dxf files
- Delivery with test certification 3.1
- Inspection certificate 3.2 for all classifications possible (TÜV, LRS, GL, DNV...)

For your demand of further materials and dimensions, that are not specified in the list, we offer you the possibility to manufacture those items to your specific requirements, to provide storage in our Service Center as well as to provide the goods in partial deliveries.

Please find further information about processing our alloys and material data sheets online on our website: www.vdm-metals.com

Order sheets with the click of a mouse!

Alloys used for following range of application such as

- Chemical processing industries
- Industrial furnace construction
- Offshore
- Powerplant construction
- Petrochemicals

Your key benefits

- Short term and controllable material purchasing
- Tailor made solutions for your specific applications from one source
- Time saving by fast and flexible handling
- Scrap metal management
- Technical know-how and material recommendation by our application engineers in question of the optimal material usage
- Cutting of sheet and plate
